

Help WMABA Combat the Effects of the 2008 Total Loss Legislation

The Washington Metropolitan Auto Body Association has hired the firm of Alexander & Cleaver to be the lobbying group in Annapolis.

There is a group of WMABA Board members and shop owners who are working together with the lobbyist to give input to the Maryland Insurance Administration and the Maryland Motor Vehicles Department on the upcoming proposed regulations from last year's Total Loss Bill (Senate Bill 568). An explanation sheet and documentation are available for the bill.

This action needs your support. Any donation you can make to WMABA to offset the costs of legal fees, which will support the continuing efforts in Annapolis on your behalf.

Our efforts can save repairable vehicles from going out of your door—it will be a donation to the betterment of your bottom line.

For More Information, contact Executive Director Jordan Hendler at (804) 789-9649 or email: jordanhendler@wmaba.com

Donation can be credited to new membership in WMABA! (Up to \$700)
