Shop-Probe®

Features

- **Interfaces with CCC Pathways, Mitchell Ultramate/E-Claims, Audatex/ADP, Shoplink, Comp-Est, and Web-Est**

True two way communications import estimate files and export part price changes back to estimating system, keeping both systems up to date, supplements will not be missed. Can also import electronic Insurance Assignment files created in EMS 2.01 file format, no estimating system required.

- **Seamlessly Integrates with QuickBooks Pro and Business Works accounting software**

Accounts Payables and Accounts Receivable are automatically transferred in the background while in multi-user mode. No longer will you have to disrupt the work of others to switch to single user mode to import (QuickBooks Pro 2004 and higher and Business Works 6.0 required). Detailed payroll data transfers in one smooth step.

- **Complete Parts Tracking capability**

Instantly create Purchase Orders for your vendors and fax them from the computer (requires fax modem) or print them as desired. Receive parts, add parts on the fly, record core charges and freight and transfers the vendor bill to QuickBooks Pro in the background. Print returned parts slips with the reason for return, record credits from returns when received and posts the credit to QuickBooks Pro as you do it.

Parts status displayed on the main screen keeps you informed of delays at a glance. Complete parts status reporting can be printed by job or vendor, by ordered parts, all parts, returned parts.

- **Real Time Labor Tracking**

Hourly, Flat-Rate, and Commission employee time is easily entered for job costing and transfers to QuickBooks Pro for completing payroll, eliminating double entry. Or if you use a payroll service, you can print the payroll reports. Either way you will no longer will you have to manually add up hours. You won't need two time clocks anymore, one for your shop and one for your office, all shop activities including office and estimating can be logged in one unit and smoothly transferred to QuickBooks Pro (additional purchase may be required).

Productivity, Efficiency, Allocations, Billable, Non-Billable, by Employee, by Job, you wanted it, we gave it to you!

- **Real Time Job Costing**

Main screen display provides up to the minute details on current cost and profits, cycle time, vehicle movement through the shop and warnings when profits fall below margin. Display monthly sales goals and progress if desired. Quickly view customer contact information and job dates.

- **Job and Shop Reports**

Print customizable Authorization for Repairs, Customer Invoices, detailed Work Orders, and Job Profitability reports for each job. Improve your shop management by using the Sales, Cycle-Time, Insurance, Morning, Scheduled-In and other reports to plan your future business.
